

THIRD W. A. A. C. TRAINING CENTER
FORT OGLETHORPE, GEORGIA

Tuesday
7:15 P.M.

Dear Mother & Dad:

Still here, so thought I'd write just a short note so you won't be looking for a phone call Wed. or Thurs. And come to think of it you won't get this till Friday!! We've left our old barracks for the staging area (the jumping off place) & may be there a few days. At any rate I probably won't be really settled in school early enough to get another note to you this week. Were hoping to leave this P.M. but seems as though the Army has other plans. At any rate you should have my new address next week. And sorry to disappoint you on the Wash. deal. Perhaps I'd better not add any more items to the telephone bill either as long as you know where I'm going to be. I'll just write Sat or Sun & give you a definite address. Incidentally, Grace

wanted - paid & divide my Xmas furlough between
him & home as he could get very little time off.
But A.C. school is reportedly 5 mos - that takes
us very close to Christmas & who knows
what we'll get then. So we'll forget it until
later. But, if I make the grade, 5 months
should give me some time to see Somebody,
Somehow. On the other hand we may never
get a 3 day pass. If it's anything like Stan's
A.S.T.P. we'll really be snowed under.

I know the writing is awful. But I'm
not using my index finger which is "out of order".
Our windows are not on chains. They just go
up & stay up with a slide bolt that you shove
into a hole in the casing. If you let go
down it comes. Well yesterday the bolt
slipped on me & down it came on my finger.
Had it X-rayed & there's no damage. But it's
out & swollen, so kind of stiff to work with.

Nothing new from Joe - sent him a
beautiful folding tobacco kit - leather & rubber
lined with Lucie Joe in gold on the corners.
Hope he likes it.

See next week - Love, Dot
